CCFMC Youth Car and Boat Show!

Volume 1, Issue 5

May 31, 2001

On May 20, 2001 the CCFMC hosted its first Youth Show and Shine. One problem: There was only one youth and there was no shine. Sunshine, that is. There was, however, a whole host of surprisingly cheerful, drippy, soggy CCFMC members. We stood around, wondering if the weather would let up,

and if it did if anyone would come to the show. There was one brave soul who brought his new model Mustang. It was a beautiful car and we were all sorry that the weather was so lousy.

Knife! We don't need no stinking knife!!

Run Ricky Run!

But that didn't stop us from having a good time! We drank sodas and, thanks to Tari and Marty Rupp, enjoyed graduation cake from daughter Nicole's recent high school graduation. As

you can see above, we improvised a little where cutlery was lacking. (Pay no attention to the bondo on the putty knife—it won't hurt you a bit!!) Thanks to everyone who faithfully braved the wet and showed up to stand in the rain for 2 hours. We will try to incorporate the show in with another car show later this summer.

Special points of interest:

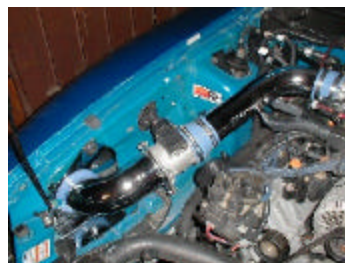

- ? *June Meeting to be held at Golden Corral, June 6. Dinner at 6:00, Meeting at 7:00*
- ? *Congratulations to Allan and Sherry Rezac!! (see page 2)*
- ? *Havelock Street Dance June 9!*
- ? *Club Cruise to PO Pears rescheduled for June 10. Polish her up pretty, we'll be taking pictures for the calendar/web page!*
- ? *Rocky Mountain Roundup leaving at 0600 on June 14th!!*

Chrome Saving Tip

If you're planning on showing your car this summer you might be thinking about adding some detailing to the engine and body. This often means chrome. One problem with chrome detailing is getting it installed without getting it damaged. Tools and neighboring engine parts can easily scratch an expensive chrome finish, leaving it permanently marred. Here's a hint we found in a recent magazine

article that may help you out.

When installing chrome pieces on your engine and you're concerned about nicking the chrome during installation, try this: Cover the piece being installed with masking tape. Mask-

ing tape is ideal because it is made to be removed and won't leave residue on the car part. Then cover the masking tape with duct tape. The duct tape is thicker and will protect the chrome during installation. It is also thick enough to handle some rough treatment.

Notes from the President:

Well summer is almost here, my mind is just boggling with all the car activity going on in Lincoln. If you haven't taken advantage of Sonic on Friday nites, it is bigger than ever. I can't believe the quality of cars that show up on Friday nite.

On May 11, some of the club members left and had a cruise out to Pioneers Park with the Stransky's leading the pack. There were about 10 cars that cruised there from Sonic and I couldn't help but notice all the attention the club cars got as we drove along. It seems that everywhere we would stop there would be somebody drooling

over the cars, after all what is more American than Mom, apple pie and a Mustang (or in Steve's case a Falcon).

Our cruise to Branched Oak Lake got canceled because of the rainy weather. It wasn't raining in the afternoon but the area would have been real muddy. This cruise will have to be made up some time early in June (I hope).

June is going to be a very busy month with the Mustang Roundup in Colorado, Limestone Days in WW, Rebels Car Show at Holmes Lake (let's show them Rebels up, they had a bunch

that attended our show last year), and Fremont swap meet, can't wait to get started.

So as I said in last month's newsletter, get that car out of the garage and drive it. One last note: there is going to be a new addition to the Buis corral soon.

Sincerely,

Mustang Rick
President CCFMC

(Editor's note: We're assuming that the new addition is of the 4-wheeled variety??)
