ON THE ROAD AGAIN!

Volume 1, Issue 9
September 30, 2001

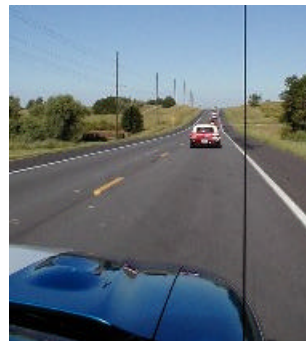

Well, I've been writing and talking all year and, to tell you the truth, I'm just about out of things to say (hard to imagine, I know). So Since one of the greatest things about being in a car club is looking at all the cool cars, and since we've had several shows between last newsletter and now, I thought I'd make this a 'show and tell' kind of newsletter.

Congratulations to the many club members who have shown and done well, and if you haven't done well, hang in there. You just haven't done well YET. Your time is

coming!

Many thanks to Cheryl Stransky for contributing photos taken at the Cook Car Show. I appreciate your help!!

Check page 2 for the trophy lineup. There are a lot of them!!

This Makes Judy really nervous!

Just be glad all State Troopers don't drive these!

I never was any good at telling twins apart—can you??

Trivia Question: How do YOU spell Rose crans??

Quite a "Wiley" looking engine!!

The Rupp made history with this show—no incidents!

Notes from the President:

Car Show, Car Show, Car Show, well the time for our annual car show is about here, the show is a big event for the club, must have been going on for 20 years, I think. I remember the first time I heard of this event, I was trying to figure out the sloppiness of the power steering in my little sister's 66 Mustang. A friend of mine told me about a bunch of mustangs showing at Dean Brothers on West O Street, said the guy that lived on Cotner would be there and he would know.

I went out there and sure enough the guy from Cotner was there. I told him about my problem and sure enough he had an answer for me. At that time he drove a white/red GT/Shelby, anybody know his name? He probably doesn't even remember talking to me.

I also remember a lot of TeSelle Mustangs there, knew they were from the dealership in Milford, there were probably 20 Mustangs at the show. From there the club moved to Gateway and I remember seeing the show as we drove down "O" Street heading

for Nebraska City to get apples. One year we stopped to check out the cars, one of the cars that stands out in my mind is a red 68 Mustang. The chrome around the grill was chrome instead of argent paint, thought that was pretty cool. I went home and did that to my car, shortly after that show (the next spring) Patti, Stacey, Nicole and I joined the club. I still remember seeing a lot of TeSelle Mustangs at the Gateway show, what ever happened to those Mustangs?

The club moved the show down to Lincoln Office Equipment the next year and we stayed there for a couple of years. Quickly outgrowing the parking lot, Mick (Dudley) Morgan and Dave Chapin took the horses by the reins and led us out to Havelock and we have been there ever since.

Havelock is a great place for us to have a show. It's a great environment and great people to work with and the participants are fantastic. I know as show time approaches (this has happened to me, and Patti was sure to

point it out and bring me back in line) the tension rises. Remember, this is a fun event and everybody is there to have fun, see some cool cars and work on our tans a little. So as Patti has told me (she is always cool, calm and collected) relax, have fun, be polite and have a good time! Remember, if not for the show participants this event wouldn't happen.

Now go over to your calendars mark a big red "X" on the 9th of September. This day is the car show and you will definitely want to be there helping out. The more workers the easier the job. Besides, you know Mick is getting older and it's harder for him to get up and down Havelock Avenue. I think this is one of the reasons he now drives a SUV (easier to get in and out of). So see you all early at 6am on the day of the show. Bring your sun screen, cool sunglasses and a pair of walking shoes! I know Allan will be there.
